Dear Governor Haley,

I was shocked today to see a 2nd undercover video from the Center for Medical Progress showing Planned Parenthood Federation of America's Medical Directors' Council President, Dr. Mary Gatter, haggling over the prices of organs harvested from the bodies of aborted children.

As your constituent, I am shocked that this process is business-as-usual in our country. Planned Parenthood, America's largest abortion provider, receives \$528 million in our hard-earned tax dollars each year. They perform 327,000 abortions every single year - almost 1,000 abortions per day. And they have so devalued human life that they are now in the business of harvesting body parts for alleged profit.

As my elected official, I encourage you to watch the video from the Center for Medical Progress. It will open your eyes to the disgusting practices of America's largest abortion business.

Please watch the video at [www \[dot\] centerformedicalprogress \[dot\] org](http://www.centerformedicalprogress.org) and take appropriate action to stop the further devaluing and destruction of human life in the United States.

Sincerely,
James Boyle
