

## DSS – Chief of Fiscal and Governmental Affairs

# Memo

**To:** Josh Baker  
**From:** William Bray *WFB*  
**CC:** Stephen Gardner  
**Date:** August 22, 2013  
**Re:** Requested budget program structure change

---

DSS is requesting approval for two program structure changes. Both are changes to the title of existing programs.

### II. Programs and Svcs

#### F. Integrated Child Support ~~Enforce~~ Services

On June 26, 2013, Director Koller created a new division to consolidate the new automated and integrated CFS Project with child support enforcement and other services to ensure South Carolina's children receive the financial, emotional, and physical support they need from both of their parents to thrive. This new division is called the Integrated Child Support Services Division (ICSSD), and takes the Division of Child Support Enforcement out from under the Economic Services Deputy Director and combines it with the new automated and integrated CFS Project whose new Director will report directly to the State Director. DSS is requesting that the program name be changed to reflect this reorganization.

### II. Programs and Svcs

#### M. ~~Child Care~~ Early Care and Education

On May 1, 2013, Director Koller consolidated all child care services at DSS into a single division. This new Division of Early Care and Education includes ABC Vouchers, Child Care Licensing, ABC Quality Improvement System, Child and Adult Care Food Program, Summer Food Administration, Center for Child Care Career Development, and Head Start Collaboration Office. The new division will continue to report to the Deputy Director for Economic Services. DSS is requesting that the program name be changed to reflect this reorganization.
