WELCOME TO SMART CITIES NOW

Updates on smart city progress around the globe

NEWS & TRENDS

How to finance resilience: A must-read new report details how cities can leverage private investment in building more resilient and integrated infrastructure. It features a framework that helped eight cities in the U.S. -- but can be applied around the world. Don't miss it. [MORE >>](#)

Making cities work better: A Chicago-based consortium is tapping the brainpower of Microsoft, Siemens and other industry, government and academic leaders to turn the city into a big urban lab for developing and testing solutions to infrastructure challenges. Click for details. [MORE >>](#)

Top city innovators? A new list of the public sector's top 25 "doers, dreamers and drivers" from Government Technology includes a number of folks who work in city halls. Click for a look at who they are (and who you may want to hire away). [MORE >>](#)

How can I make neighborhoods safer in my city?

Our new Smart Cities Solutions centers address common city pain points and how to solve them. For example, every city wants to find ways to reduce crime and make its streets safer -- and you'll find them in our one-stop collection of resources focused on smart public safety technologies that are working for cities around the world. [Get answers now >>](#)

PRODUCTS & SERVICES

Steering an emissions-free future: Cities are trying various ways to reduce vehicle pollution, from traffic management to beefed-up mass transit options to car-free zones. Mercedes-Benz has some thoughts on the topic -- and even better, a new line of plug-in hybrid models that offer emissions-free local driving. [MORE >>](#)
