WELCOME TO SMART CITIES NOW

Updates on smart city progress around the globe

NEWS & TRENDS

Steal these smart ideas, please! A smart library. An even smarter lake. Drones that protect the safety of tower inspectors. Learn about these and other award-winning ideas highlighted in InformationWeek's Elite 100 ranking of innovative technologies – and feel free to borrow them for your city. [MORE >>](#)

The future of buildings is now: Once the stuff of science fiction, today four major trends are driving the furious development of building automation technology for smarter buildings. Read our excerpt from ABB Review to learn how these technologies help cities meet energy efficiency goals. [MORE >>](#)

PARTNER SPOTLIGHT:

Bechtel, IBM, Cisco, Alstom Grid, Ooredoo, GE, Cubic

Construction innovator Bechtel wins OK to use drones on U.S. projects... Border cities take note -- IBM's Watson tapped for border protection in Australia... Kansas City will work with Cisco to realize its smart city vision... Alstom Grid opens green manufacturing and R&D facility in Italy... And we've got a batch of awards to share too; see why Ooredoo, GE and Cubic Transportation Systems are in the spotlight. [Click for the details >>](#)

PILOTS & PROJECTS

5 sustainable city transformations: One neighborhood has been vacant since the steel industry collapsed. Another is still trying to recover from Hurricane Sandy. Others are doing well, but are acting now to create a sustainable future. Get inspired by transformations under way in five cities working with EcoDistricts. [MORE >>](#)

Highway rest stop takes on the drought: The typical roadside rest stop flushes a staggering amount of water down drains each year. In drought-stricken California, creative transportation officials are using technology to reclaim and reuse water from sewage generated at rest stops. There's another twist to this story too; don't miss it. [MORE >>](#)

Register now for Smart Cities Week Conference & Expo

Smart Cities Week participants will gain a keen understanding of the top strategic issues leaders must address as they plot a smart city course -- from visioning, planning and breaking down silos to the interplay of cross-cutting technologies and innovation with core city functions like human services and public safety. Join us in Washington, D.C. Sept. 14-16. [Register today >>](#)
