Subject: Interstate Containment Wire Safety Fence

The Honorable Nikki R. Haley;

The other week my wife and I drove to St. Louis Mo. and noticed along the way that the wire safety containment fence was designed and installed with concrete strip between the post to eliminate the grass/weed trimming.

What a great idea to reduce cost for the state of South Carolina. We have thousands of miles of "weed eating and trimming" along our interstates. This is not only a cost saving idea for South Carolina but a Safety improvement not having folks cutting year round on our highways.

Thank you.

A handwritten signature in black ink that reads "TOM HENDERSON". The signature is written in a cursive style with a horizontal line striking through the middle of the name.
