

Feb. 21, 2015

To. Judge Heather R. Salvin, the Port Royal
police and all of the S.C. State officials
the news media and anyone else who deal
with or would not listen.

The following is my opinion and it is
based on facts not emotions. You Judge
Salvin made a decision based on your
female human emotions without finding
the facts & my wife & I have suffered two
years because of this. I believe you are
trying to find a way out without admitting
you were wrong. I was not allowed a
rebuttal in the March 2013 hearing &
I was not allowed any say in the Aug. 2013
hearing. Where is American justice there?
We one investigated Erin's statement for
fact & everyone just assumed she was
telling the truth. A judge is supposed
to make a decision based on facts. My
9th grade education tells me this.
As it is & was you have deprived us
of two years of our lives. How do you
account for this? Erin took my wife's
medical records which stated by Dr.
Amanda Salas that my wife did not
suffer any mental problems.

(2)

I reported this to the Port Royal
Police & got a case # but nothing else.
They sat down on their sworn duties.
I agreed based solely on getting my
wife back to the Hampton area to a
restor nursing home & still you gave
Erin an out about dental work. That
was another wrongful decision. If there
was or is an honest person in this
state to review all the facts it would
be a different situation. As I have
said before all doctors, lawyers, judges
& state officials stick together & tread
on us poor defenseless people. We are
approaching our mid 80's so I think
you are waiting for one of us. especially
me to die so you can bury these stories.
I will not die even if I do so not
to worry Judge Halvin. I am sure
you are going about your life but
my wife & I are not. You made the
mess why don't you try to clean it up?
