Subject: Senator Laura Ingraham (R-VA)

---

Patriot,

Conservative talk radio host Laura Ingraham is considering challenging Tim Kaine for Senate in 2018.

And as expected, the liberal media, the Democrat Party and the GOP establishmen are in a frenzy over the thought of "Senator Laura Ingraham (R-VA)."

Patriot, Laura Ingraham in the U.S. Senate may be their worst nightmare.

**I'm counting on you to help make that nightmare a reality by signing your "Draft Laura" petition and chipping in a generous contribution to show Laura Ingraham you've got her back.**

If Laura Ingraham runs for U.S. Senate, the the radical environmentalists, the extreme, "in your face" homosexual lobby -- the same ones who sickly partied outside Mike Pence's house a few weeks ago . . .

**They're certain to launch a vicious attack campaign against her the moment she announces her candidacy.**

That's why you and I must show her she'll have the grassroots backing and financial support to take on an defeat an entrenched incumbent like Tim Kaine.

**So can I count on you to sign your petition and chip in a contribution to show Laura Ingraham you've got her back?**

Laura Ingraham is a strong conservative with a national following.

And she stood behind Donald Trump and support his campaign, even when mocked and attacked by her colleagues and friends.

There's no doubt she's the best positioned candidate to DEFEAT Tim Kaine.

But my sources in Washington tell me the Republican establishment already has their hand-picked candidate chosen to run against Tim Kaine.

They're hoping conservatives like you and me will just "step aside" and line up behind their hand-picked candidates.

**Will you step aside and stand down, Patriot?**

**Or will you stand with Laura Ingraham by signing your petition and chipping in a contribution?**

Thank you for your support.

Sincerely,

***Tim, Principled PAC***
