Michael David,

It has been a week since my interview for the Continuum of Care position available and I remember you stating that it may take 2 weeks or so to determine the right fit. However, I just wanted to check in and let you know that I am still very much interested in the position and feel that I would be a great fit for the job. I believe that I possess qualities and characteristics necessary for this job that cannot be taught, such as confidence in front of crowds to speak and the ability to communicate and relate to people of all backgrounds, socioeconomic backgrounds and especially those in hardship or difficult life circumstances. Prior to working with kidney transplant patients, I had no experience or understanding of the process or the disease and the information I needed to learn I learned very quickly. Please continue to consider me as an exceptional candidate for this job and know that I am willing and eager to get my feet in the door and prove myself as an effective and motivated coordinator and establish that I am the right person for the job. Thank you, again, for your consideration and time meeting with me last week and I hope to hear from you soon.

Best regards,  
Bennett W. Brown

David Michael,

I would like to take the opportunity to thank you and Tiffany so much for speaking with me today about the Intake Coordinator position with Continuum of Care. Although I may not have vast DJJ/Medicaid or other specific experiences, I truly believe that I possess values that would make me an excellent candidate for this job. My ability to communicate and negotiate with others as well as confidence and articulation in front of an audience, I feel, would make me an asset to your organization. I know that I have demonstrated success in every avenue and career path I have explored and I would give my full 110% to this job if given the opportunity. Thank you, again, for your time and most serious consideration and I hope to hear from you soon.
