Subject: Climate change's growing threat to public lands and more This Week at Interior

Dear Friend,

This week, Secretary Jewell attended the 2014 World Parks Congress in Australia where she stressed the need for international cooperation on public lands and the growing threat of climate change. Secretary Jewell also joined the president of Kiribati to announce a new partnership that will support research and conservation activities for nearly 490,000 square nautical miles in the Pacific Ocean. Plus, more in This Week at Interior.
