

Dear Gov. Haley,

12-20-14

Hello, I write you ~~do~~ to the seriousness of this issue. I contacted the U.S. Attorney's office over 6 weeks ago but I got no response back.

So I just wrote Judge Terry Wooten and U.S. Attorney William Nettles on 12-19-14.

It was concerning a double murder. that took place close to 30 years ago in Swansea, SC. in Lexington County.

I was recently given information by the person that committed this double murder. He also informed me, that he had a family member, that was connected to ^{the} Sheriff and had took care of things, that would have been Sheriff James Metts. I gathered from the information, that there had been a cover-up by the Sheriff.

I feel this needs to be investigated by the law. But I do not trust no law from Lexington County or S.C.

But I am sure you are aware, that a lot of crimes in this state get solved by people just like me.

I am willing to solve this double murder. I am willing to take a poly-graph test to support and back my word. This would allow the law, to make an arrest in this double murder and bring closure for some family in Lexington County.

If this cover-up falls in the lap of James Metts, then so be it. However I am not willing to put my neck on the line unless the law is willing to do something for me. I have spent 25 years in prison I got 6 years left. I am in bad health at (61) years old. Give me a deal I will solve this double murder. If Metts falls a little harder that is on him. I ask for your help in this matter. THANK you, ~~William DeHaven~~
WILLIAM DEHAVEN, SR.
