The Honorable Mark Sanford, Governor
and
Members of the Board of Trustees
University of South Carolina
Columbia, South Carolina

The report on internal control over financial reporting and on compliance and other matters based on an audit of basic financial statements, and the report on compliance with requirements applicable to each major program and on internal control over compliance of the University of South Carolina for the fiscal year ended June 30, 2004, were issued by KPMG, LLP, Certified Public Accountants, under contract with the South Carolina Office of State Auditor. These reports are an integral part of an audit performed in accordance with *Government Auditing Standards*, and should be read in conjunction with the basic financial statements of the University of South Carolina for the fiscal year ended June 30, 2004, issued by KPMG, LLP, Certified Public Accountants, dated October 1, 2004.

If you have any questions regarding this report, please let us know.

Respectfully submitted,

Thomas L. Wagner, Jr., CPA
State Auditor

Federal grantors/pass-through grantors/agencies or cluster title	Federal CFDA number	Grant number	Expenditures
Pass-through programs from:			
Benedict College:			
Aging Skeletal Muscle's Decreased Regenerative Capacity: Inflammation's Critical Rol.	47.076	EPS-0132573	\$ 16,293
National Academy of Sciences:			
Active Sensors for Health Monitoring of Rotating Machinery	47.075	NAT RES COUNCIL	3,833
South Carolina ETV:			
Evaluation of the "TECH" Program of the Educational Television Endowment of South Carolina	47.076	HRD-0217199	41,679
South Carolina Research Authority:			
NSF/EPSCOR SC 2000 Cooperative Agreement "Material Science/Nano-science at USC	47.049	20020444	305,050
A Systematic Analysis of Hammerhear Ribozyme Target Sites Within HIV-1 Tat	47.070	20030194/TO0011	6,447
The Pre-Invention of Flowers by Splachnaceae Mosse:	47.074	20030194/TO0027	5,246
Expression and Function of Galectin-3 During Mammalian Spermatogenesis.	47.074	20030194/TO0005	28,488
A Joint Francis Marion University/University of South Carolina Program to Synthesize and Characterize New Total Synthesis of Fusarhromanone ant) New Analogs for Probing Anti-Cancer Activity	47.076	20030194/TO0004	23,517
DNA Detection with Nanoparticles	47.076	20030194/TO0003	3,660
Supramolecular Structures of Coordination Polymers	47.076	20030194/TO0015	17,673
Size-Selective Synthesis of Monodisperse Metallic Nanoclusters Using Organic Cavities	47.076	20030194/TO0012	33,819
Synthesis and Characterization of Nanostructured Materials for Hydrogen Storage	47.076	20030194/TO0013	33,284

THE UNIVERSITY OF SOUTH CAROLINA

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2004

(1) Basis of Presentation

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal grant activity of the University of South Carolina (the University) and is presented on the accrual basis of accounting. The information in the schedule is presented in accordance with the requirements of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in the schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

(2) Summary of Significant Accounting Policies for Federal Award Expenditures

Expenditures for student financial aid programs include the federal share of students' Federal Supplemental Educational Opportunity Grant (FSEOG) program grants and Federal Work Study (FWS) program earnings, certain other federal financial aid for students and administrative cost allowances, where applicable.

Expenditures for federal research and development programs are determined using the cost accounting principles and procedures set forth in OMB Circular A-21, *Cost Principles for Educational Institutions*. Under these cost principles, certain expenditures are not allowable or are limited as to reimbursement.

(3) Federal Perkins Loan Program (CFDA Number 84.038)

The Federal Perkins Loan Program is administered directly by the University and balances and transactions relating to the program are included in the University's financial statements. The balance of loans outstanding under the Federal Perkins Loan program was \$18,293,115 as of June 30, 2004.

(4) Matching

Under the FWS program, the University matched \$431,451 in total compensation for the year ended June 30, 2004 in addition to the federal share of expenditures in the accompanying schedule of expenditures of federal awards.

Under the FSEOG program, the University matched \$347,107 in funds awarded to students for the year ended June 30, 2004 in addition to the federal share of expenditures in the accompanying schedule of expenditures of federal awards.

Mr. Thomas L. Wagner, Jr., CPA
State Auditor
State of South Carolina
Columbia, South Carolina

We have audited the financial statements of the business-type activities and the blended and discretely presented component units of the University of South Carolina (the University), a department of the State of South Carolina, as of and for the year ended June 30, 2004, which collectively comprise University's basic financial statements, and have issued our report thereon dated October 1, 2004. We did not audit the financial statements of the University of South Carolina School of Medicine Educational Trust and Clinical Faculty Practice Plan (the Trust); University of South Carolina Educational Foundation; the University of South Carolina Business Partnership Foundation; the Greater University of South Carolina Alumni Association; the Carolina Piedmont Foundation, Inc.; the University of South Carolina Development Foundation; the Lancaster County Educational Foundation, Inc.; and the University of South Carolina Research Foundation (collectively referred to as "Foundations"). Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts included for the Foundations, are based on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered University's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether University's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the University in a separate letter dated October 1, 2004.

This report is intended solely for the information and use of the State Auditor, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**Independent Auditors' Report on Compliance With Requirements Applicable to
Each Major Program and on Internal Control Over Compliance in Accordance With
OMB Circular A-133 and on the Schedule of Expenditures of Federal Awards**

Mr. Thomas L. Wagner, Jr., CPA
State Auditor
State of South Carolina
Columbia, South Carolina

Compliance

We have audited the compliance of the University of South Carolina (the University) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2004, except those requirements discussed in the third following paragraph. The University's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the University's management. Our responsibility is to express an opinion on the University's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we consider necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the University's compliance with those requirements.

In our opinion, the University complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2004, other than those requirements discussed in the following paragraph.

We did not audit the University's compliance with requirements governing maintaining contact with and billing borrowers and processing deferment and cancellation requests and payments for the Federal Perkins Loan, the Health Professions Student Loan and Nursing Student Loan programs. Those requirements govern functions that are performed by Educational Loan Servicing, LLC (Campus Partners). Since we did not apply auditing procedures to satisfy ourselves as to compliance with those requirements, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on compliance with those requirements.

Campus Partner's compliance with the requirements governing the functions that it performs for the University was examined by other accountants whose report has been furnished to us. The report of the other accountants indicates that compliance with those requirements was examined in accordance with the Department of Education's Audit Guide, *Compliance Audits (Attestation Engagements) of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. Based on our review of the service organization accountants' report, we have determined that all of the compliance requirements included in the *Compliance Supplement* that are applicable to the major program in which the University participates are addressed in either our report or the report of the service organization accountants. Further, based on our review of the service organization accountants' report, we have determined that it does not contain any findings of noncompliance that would have a direct and material effect on the University's major program.

Internal Control Over Compliance

The management of the University is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the University's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Requirements governing maintaining contact with and billing borrowers and processing deferment and cancellation requests and payments for the Federal Perkins Loan, Health Professions Student Loan and Nursing Student Loan Programs are performed by Campus Partners. Internal control over compliance relating to such functions was reported on by other accountants in accordance with the Department of Education's Audit Guide, *Compliance Audits (Attestation Engagements) of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. A copy of the service organization accountants' report has been furnished to us. However, the scope of our work did not extend to internal control maintained at Campus Partners.

Our consideration of internal control over compliance would not necessarily disclose all matters in internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the business-type activities and the blended and discretely presented component units of the University of South Carolina (the University), a department of the State of South Carolina, as of and for the year ended June 30, 2004, and have issued our reported dated October 1, 2004. Our audit was performed for the purpose of forming opinions on the financial statements, which collectively comprise the University's basic financial statements. We did not audit the financial statements of the University of South Carolina School of Medicine Educational Trust and Clinical Faculty Practice Plan (the Trust); University of South Carolina Educational Foundation; the University of South Carolina Business Partnership Foundation; the Greater University of South Carolina Alumni Association; the Carolina Piedmont Foundation, Inc.; the University of South Carolina Development Foundation; the Lancaster County Educational Foundation, Inc.; and the University of South Carolina Research Foundation (collectively referred to as "Foundations"). Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts included for the Foundations, are based on the reports of the other auditors. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the State Auditor, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
