Subject: Still Time: Federal Executive briefing on Next Gen Apps

Trouble viewing this email, try [viewing](#) in your browser.

Dear Government Colleague:

There is still time to join us on the morning of October 20, 2015 from 7:30 a.m. – 10:30 a.m. for the AppDynamics Federal Executive Collaborative Briefing: **Next Generation Applications - Visibility and Optimization across your agency's key initiatives**, hosted by AppDynamics, Signature Management Group and DLT.

This event will include a strong program of federal experts who will articulate the benefits and goals that participating agencies can expect from proactively monitoring, managing and optimizing their applications.

Jonah Kowall, VP Market Development and Insights, AppDynamics, will open the event with a Visionary Keynote. A former Vice President of Research at Gartner, Jonah will provide valuable insight into the APM landscape.

Following Jonah will be a Federal Roundtable discussion with current and former federal CIO's. The morning will conclude with a Visionary Keynote by **Michael Bennett**, former CIO BEA Systems and Northrop Grumman and now a Board Member for the USPS.

This event is **complimentary** to government. [Register NOW](#) and we look forward to seeing you there.

Sincerely,
Patrick Gerhold
