But I don't want to duplicate efforts.

Austin – is there information from state agencies you've already been collecting or should David start from scratch doing it?

Chaney,

My research focus has been federal programs generally, and farm/agriculture programs at USDA specifically. I do have that information in a one-page document and will send over to you in just a moment.

As for the programs offered by our State agencies, I was not tasked with collecting that information but am more than happy to if Josh or Austin have not already. Y'all just let me know. When would you like that information by?

Thanks.

David, I believe you are working on gathering information from all of the agencies—Commerce, DEW, SBA, DOA and SCDA, about what kind of relief and or assistance they can provide?

Could you get that information over to us in a one or two pager that can easily be turned into talking points and a release?
