Re: full-time summer school

I am a full-time student at the University of South Carolina. This is my first year in college, however, because of credits I earned during high school, I am a second semester sophomore. I plan on attending USC full-time this summer and taking at least 15 credit hours.

Is there any way that the Palmetto Fellows scholarship can be used during the summer? I am planning on graduating perhaps August 2016 or December 2016 so you will be paying much less than the four years that I qualify for. Please let me know so that I won't have to take out such a large loan for summer school.

Sincerely,
