---

Hi Katherine,

Just wanted to see if you recieved the message below and wanted to gage your interest. Our server was also having some issues with emails getting bounced so don't know if you received it last week.

Best Regards,

Hi Katherine,

Hope you are doing well. Just to refresh your memory my wife Dr. Nisha John and I met you and Governor Haley at her book signing April 14th at Sandhills (i've included a picture).

My wife is Dentist who works in an underserved S.C community and knows Dr. Harold Jablon and Dr. Mouna Bossler c and several others directly involved with Gov. Haley's original 6 program.

We had a short discussion on dentist fundraising for Gov. Haley's re-election campaign and you gave me both yours and Gov. Haley's cards and told me to get in touch.

The company i work for deals exclusively with International Dentists who have received U.S Dental Licensure helping them find their first U.S dental jobs and we also consult for dental companies that want to reach them. A great majority are Indian Dentists who would be happy to contribute to a well thought out fundraising strategy as they are very proud of Gov. Haley's achievement as an Indian 2nd generation woman.

One of our clients - Bank Of America is also open to developing a special financing program just for our international dentists who choose to open a practice in an underserved community in S.C - hence making the original 6 program even more attractive and finding a long term solution at least

from a dental care perspective.

I would be happy to meet you to discuss,

Best Regards
