Subject: We CAN reach out to our returning veterans!

Network of Care for Veterans, Service Members and Their Families

The Network of Care is the most widely used local outreach tool for early intervention in more than 500 counties and 27 states.

WATCH DEMO 

WE CAN REACH OUT TO OUR RETURNING VETERANS!

The innovative local outreach program called the **Network of Care for Veterans, Service Members & Their Families** has shown unusually strong success and is spreading to many states and counties in the country.

This commercial-free project is the only one of its kind that combines all services and programs available to veterans into a single place. This includes programs from the VA, DoD, state, local, grass-roots – everything, regardless of how it is funded. The Network of Care also brings together the best-in-class health and mental health information, job searches, personal health records, housing, support groups and much more.

“As head of the emergency outreach team, I can tell you that the Network of Care should exist in every single county and be at the reach of every single crisis outreach worker in America,” said Katherine Rovendro, Director of Service Development with the Anne Arundel County, Md., Crisis Response Team. “There is nothing like it. It has transformed our work. It has saved lives. It needs to be nationwide.”
