1068 Highway 25 North  
Edgefield, SC 29824

If there is anything  
you can suggest that  
might be of help to him  
before its too late.

Governor Haley,

I am writing this in regards to my nephew his name is Daniel Reynolds He has been in prison since 2010. The last year and a half he has been sick with bad headaches chest pain, hurting in his left arm and passing out.

He was in Trenton Correctional Center until everytime he would go to the nurse or whoever was in charge they made fun of him and said there was nothing wrong with him.

Then he collapsed in front everybody and they sent him to Ridgeland Correctional to see a head doctor. To my understanding this doctor told him he needed to see a heart doctor.

His mother cries all the time because she thinks they are going to let him lay there and die. They just gave a boy too much insulin after he told them it was too much. They didn't check on him like they were suppose to and he died.

We know they did wrong but they are still human beings. It's shameful and disgraceful that they take tax payers money to give a sex change to a prisoner who is sick and not life threatening. They treat terrorist prisoners and illegals better than our own citizens.

Sincerely  
Thonda Blackmon
