RE: Voting Fraud

Dear Governor Haley:

I am so frustrated with our so called President or as he likes to constantly refer to himself as Commander and Chief. There has been so much happening against the Constitution since he went into office.

I am asking that you please fight, long and hard, against voter fraud. I was really taken back when my 16 year old grandson came to visit me and we wanted to take him fishing. Do you know that I was not able to acquire a fishing license because he did not have any picture ID. They wouldn't even accept his Birth Certificate because it had no picture of him. However, something as important as voting for the leader of our Country you do not need any ID. What is wrong with this picture? President Obama needs a waking. All states should stand together and insist that and a picture form of ID be available at the time of any government voting.

Sincerely,

  
Sharon A. Theriault
