**Subject:** Century Aluminum closing

---

The honorable Nikki Haley,

First I want to say what a great job you are doing as Governor. You brought the state together during the floods and saved lives. I serve in the SC NG with your husband and worked on Vigilant Guard with him 2008 when I worked at the Joint Operations center. I now work for a federal agency in SC. Now I want to ask for your help with a pending closing of a large SC employer not because of a lack of need for a product. This plant Century Aluminum is closing because Santee Cooper a publicly owned power company will not discount power rates or allow Century Aluminum to use power lines it said they could use. I own 45 acres of property on the back of Cane Bay subdivision in Berkeley county and know this closure will affect housing and power rates. Please do what you can to keep Century Aluminum open. I also own 2 rental properties in an area served by Santee Cooper. I am disappointed by the Santee Cooper boards and the board director in action to help this situation. Please feel free to contact me at the info provided below.
