---

Henry,

Marcia may be able to further clarify but what I think Mike is asking for would be average salary by job classifications (over \$50K) for the CIO division at the Board compared with the a same positions with average salaries from a representative basket of the 20 largest agencies. I think it's a very good question and if its doable, I'd ask that Sam please pull the same information for the other positions/classifications at the board and other agencies for all positions over \$50K.

The way I would see this report looking with one made up example would be like the following....

| Position          | Ave Bd salary | Ave agency salary | % difference |
|-------------------|---------------|-------------------|--------------|
| Type 2 programmer | \$55,000      | \$50,000          | 10%          |
| Etc               |               |                   |              |

Average

Additionally, could I please get the following.....

- total board employment this year

- Total number of retirees that have been rehired as consultants (if possible)

- Number of board employees this year that are Teri holdovers (ie, 5 years in Teri are over yet they are still on the payroll)

- Number of board employees that are in the teri program under 5 years

- Number of board employees who are in teri that will hit the end of their 5<sup>th</sup> year by Dec 31 2008

- Total number of Board employees annually over the last 15 years that would include retirees rehired as consultants, folks who are past their teri 5 years but still on payroll, etc

Feel free to copy us on an email to Sam and we can start talking directly with him to keep you out of the middle of the discussion.

Thanks much,

Chad

**Subject:** Personnel Information

Henry

Thanks for the personnel information on the CIO folks with salaries over \$50K. I am wondering if it is possible to get the same information for IT folks in the twenty largest agencies including DHEC and DOT but not any higher education.

Also I would like to see for CIO organization and the same twenty agencies' IT folks the total personnel compensation for each of the past five fiscal years.

Marcia - If I forgot anything could you talk to Henry about it.

Thanks for all your help.
