You may have a campfire at a regular campsite at Oconee State Park, as of now.

We have reservations at Oconee State Park this weekend. Just wondering if the mountain fires have affected that area.

Oconee State Park is open and fine. However, there is a burn ban place. Campfires will not be permitted in the walk-in tent sites at Oconee State Park, until further notice. Please call the park office if you have any questions or need additional information at 864-638-5353. Hope this helps!
