For more information about the Palmetto Clean Fuels Coalition (the state-wide DOE Clean Cities designee), please see our website here: <http://palmettocleanfuels.org/> The Coalition serves as a great resource on issues related to clean transportation in SC. Please let us know how we can help in terms of the VW settlement, or on any other transportation related issue.

> During our meeting, you asked about the Energy Plan. As we discussed, we're still working on the final Plan. Attached is the final draft of the baseline document; we expect to be able to finalize it, with recommendations, by early next year. I've also attached a graphic representation of the development process, in the event that's useful. We are happy to provide you with more information or brief you anytime. Additional information is also available on our website here: <http://www.energy.sc.gov/energyplan>
