---

Movement Mortgage Ribbon Cutting- the company is flexible on a date in early- mid- March, and Nicole suggested the morning of Friday, March 11th at 11 AM. The company announced 650 jobs in Lancaster County with \$20 million investment in Jan. 2015, and they anticipate surpassing that number fairly soon. They have room for a second building where their first building has been built and are planning to begin building that second building sooner than originally planned.
