No problem. I believe we are waiting on the corrected invoices for Sept and August.

Thanks.

Tony

Tony,

The reason why I said August, September and October was because August was added with July. When I was doing my quarterly monitoring I didn't see a post for an August check. So I misspoke when I said we were due August. I apologize for the error. All we lack now is September and October. Thank you a again for your prompt assistance. Shelia
