Subject: Save Funding for the Arts ~ Website email from Maggie Jordan

Lt. Governor Bryant, It is imperative that the funding for NEA and NEH does not get eliminated by this administration. It is less than .0625% of ythe entire budget, and it will only HURT the already underrepresented persons in this nation. Whether you all just prefer paintings of ducks and old white men, or have ever seen a movie in your life, I urge you to take a few moments to relive those experiences or observe the surroundings, and maybe, you will begin to understand how art in America has only improved, educated, and enlightened each individual who gets exposed to it. Please consider voting for INCREASING and IMPROVING both the NEH and NEA instead of eliminating it for the sake of "draining the swamp" -Maggie Jordan Maggie Jordan
