Delbert – I'd offer the following as a suggestion for this agenda item.

First, I think the item should include language that directs staff to review the organizational reporting structure of the State Auditor's position in light of the passage of S22. Currently, the Auditor reports to the five Board members. That structure was set as such because the Board was responsible for most of the administrative processes of state government. But, with most of those processes migrating to the Department of Administration, a better organizational may be for the Auditor to report through the new director of the SFAA who is appointed for a four year term (more insulation). Dependent upon the best model, that change may involve legislation.

Second, after the best model is determined, then the interview committee should be reappointed next January to solicit resumes, et cetera.

Just my thoughts,

Mike
