Subject: Request for meeting with Governor Haley

Dear Leigh,

As mentioned to you by telephone, The International Stem Cell Society (STEMSO) would like to request a meeting with Governor Haley to discuss the introduction of a Compassionate Care Bill that will allow for known hospitals to perform minimally manipulated adult stem cell treatments for chronic illnesses and injuries using one's own adult stem cells. This treatment will be administered at the discretion of a board-certified medical doctor in the state of South Carolina. Please see the attached letter from STEMSO and the additional documents which will show how Governor Perry in Texas allowed the Texas Medical Board to regulate adult stem cells.

I look forward to your response for a date and time to meet with Governor Haley.

Warm Regards,

Kathy Hebert
International Stem Cell Society (STEMSO)
Executive Vice President
