I agree with David.

Holly – did we make any progress on the Form 1 and preparing for an enforcement action?

Until something new happens (we file suit, they actually move forward with bringing more waste/plutonium into SC, they begin to move plutonium out of SC, we begin to collect fines, etc) I still think that quote works as written. It is broad and hits all the main points: we would love for them to move it out but if they don't we will continue to fight to make them uphold their end of the bargain.

Holly, Josh and David,

What do you all suggest adding to the quote that was approved last week on this matter?

Quote from Chaney Adams, Haley press secretary, "This is obviously a good thing for South Carolina, but only if the Feds follow through on the report and actually move the waste from Savannah River. The DOE does not have a great track record of keeping its promises to the people of South Carolina, which is why we will continue to push them in every way we can to make sure our state is not a dumping ground for others' nuclear waste."

Subject: Jan. 1 MOX Deadline

Hi, Chaney. Hope all is well.

Working on a followup to Gov. Haley's letter to Sec. Moniz earlier this month and had a few questions below. Looking to get answers by 5 p.m. Thanks!

1) Has Gov. Haley received a response from the Secretary or DOE regarding the removal of plutonium from the site? If so, what has been said? If it was in the form of a letter or other document, could you send it?

2) If Gov. Haley has not received a response, is she still expecting one?

- 3) Regarding last week's news that DOE is looking to remove plutonium from SRS: Would that satisfy the MOX agreement in Gov. Haley's opinion, even though the plutonium that would be removed is not part of the plutonium scheduled to be MOX'd?
- 4) Beginning Jan. 1, what is the process moving forward to impose fines? Will Gov. Haley send a followup letter/request for the \$1M a day, will she be working with AG office, etc.?
- 5) If and when DOE pays the fines, is there a specific destination or appropriation for the money? Or will it simply go into the state's general fund?
- 6) Anything else?
