

From: Nikki Haley,

June 14, 2016

My name is Anthony W. Jettcoat, Right now I am considered a criminal at the state of South Carolina, and I know my opinion does not mean much, but if you would permit me to elaborate on a few matters, not just me but others appreciate your attention. It is an opinion that most of the defendants detained here at LEX-CON Det. Center are being stripped of our due process of law, our rights as indigent are not being protected that are guaranteed by our U.S., So, can't most of us are being held on an extreme amount of bail, which makes it impossible to bond out to our jobs and the support of a real attorney. It is then determined that we automatically qualify for an public defender, which is opinioned acts as a set of "handcuffs" for the solicitor's. These attorneys (invest \$\$\$) most cases by pushing back court dates is an effort to drain the funds available to them by the office of indigent defense. "Meanwhile," I personally have not heard our ~~indigent~~ at least counsel from my Attorney. In fact our letter I received says (I have only the right to plead guilty or not guilty, only with the consent of the solicitor). Also in the matter of a preliminary hearing, I failed to see where probable cause was established in fact in my there was no proof established I committed such crimes as one I'm charged; only theory I was quite shocked when my Attorney did nothing at all to protect my

right not to be abridged, ect. Gov. Haley I would
be glad to offer my cases up for review by proper
authorities to show I'm not just some paranoid inmate
at L.C.P.C. I can prove these issues. I've wrote
I.A., F.B.I., S.H.E.D., State Supreme Court, Indigent defense,
not one has answered our plea for justice. Keep in mind
there are others concerned for these issues. Anyway
this is the way we see things from our perspective.
The judge set bail too high for an indigent to afford,
then appoints an public defender who does not even
care to defend our due process or Constitutional rights. The
solicitor puts off our cases for an unbearable amount
of time, hoping we will get tired of being in
county and take a plea, if not your stay here gets
even longer. This is a form of coercion to Buy
this time no one cares! Because by then everything
we had is gone, sometimes even our loved ones abandon
us out of hardship. I'm sure that if a proper investigation
was done you would find (starting with Indigent
defense) a lot of taxpayers money (S.C.'s money)
being issued to Districts and Attorneys for doing
nothing more than turning in a bill. I heard an
solicitor say it's like shooting fish in a barrel and getting
paid for it. I investigate, if we are wrong then
I have only put my head on the chopping block, but
we would like to bring this matter to your attention.

Please consider these opinions without prejudice, and help to insure our due process along with our const. rights are protected as well as the laws which govern S.C. law enforcement. We will all be held accountable in one way or another. I believe a people will only imitate its leaders, also CAUSE breeds CAUSE! I will tell you this Gov. Haley, the man whom I am accused of murdering did come after me even when I went into my own home. I had every intent of taking my life. Also he is being investigated for the death and rape of at least four underage girls along with some at his friend. This was confirmed by my public defender and his spouse Deanna Sauls.

Also in the matter of the contraband problem in the S.C.D.C., you have only been informed at little that goes on behind this issue. I take a state's employee (guard) to open a door to allow contraband to be thrown over a fence, how is it paid for? One pound of tobacco can bring a gross income of one thousand or more dollars. A ten dollar cell phone with minutes cost about five hundred dollars. This is big money! The problem is it cost taxpayers money to effortlessly put an end to a process that is conducted by S.C.D.C. employees as well as inmates. Medical cost to treat inmates who have stabbed or beaten, either in a robbery attempt or an inmate who can't pay his bill with the inmate who controls the sale of said contraband. Not to mention the real victims of this whole process,

the families and loved ones who support inmates during their incarceration at S.C.D.C. They have the worth based to put money into accounts to help pay for all it is sold at contribute. This place away heavy burden on innocent taxpayers should not be less cost effective to allow cigarettes and prepaid phones to be sold at S.C.D.C. (with restrictions of course)

This would lessen the burden not only on the poor but parents and parents, as well as others who support their loved ones. The proceeds from the sale of these products would benefit S.C. also either to go to 50% of the problem caused by contribute. One must consider the rest of doing battle and decide if can premise is best for all involved, those seen and those not seen, those heard and those unheard.

In the matter of finances, yes it is terrible to lose your investment. Believe me I started my own business in 2003, by 2008 I lost everything due to the economy and the blood of American) Spanish bankers into S.C.

The first thing I learned about investments people can and do lose money. Oh, finances had our bad blood, but neither the reason than the parents lack like they is missed any more. Our bad copy does not institute billions being handed out by taxpayers. So they need to get out if you can't have a business and eat cake. Every day a Example his shipping industry asking Charleston for parents to pay for classes transfer to accommodate lesser shipping vessels.

Let his shipping pay for deepwaters. That's a
problem, big business wants taxpayers to pave
the roads and fix the railways they use to get
rich. And I would be willing to bet those very
farmers have deducted a reasonable amount
of losses on their taxes this year as well as
received money from supplement insurance.
You are supported on this issue. (Stand your
ground Nikki) I for one am proud of you
and what you do for S.C. And I will continue
to pray for your success. I have either don't
see it or I with the press/community but look
who build and governed one of the most
beautiful city's of the world "Sydney Australia",

with warm regard for your work
and much respect for your name
Gov. Nikki Haley; Thank you

Chris Sykes
