LSA Tech-Tips

Tips and useful information for
Members & Staff of the South Carolina State Legislature

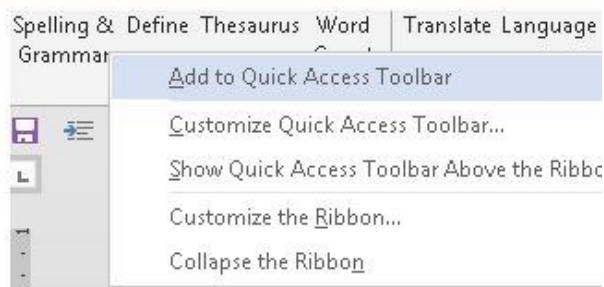

Quick Access Toolbar

The Quick Access toolbar (QAT) gives you access to commonly used features in all Office programs. You can add or remove buttons to suit your needs, and move it from one of two possible locations.

To add a command that already appears elsewhere on the Ribbon:

1. Click the appropriate tab or group to display the command that you want to add to the Quick Access Toolbar.
2. Right-click the command, and select Add to Quick Access Toolbar on the shortcut menu.

To add other commands:

1. Click the down arrow on the QAT and select More Commands.
2. Under Choose commands from, select Popular Commands, Commands Not in the Ribbon, or All Commands.
3. Find the command in the list, then click Add.
