Subject: ETV Budget Format

I don't remember where exactly we left this process-wise, but I spoke with Brent a few minutes ago and explained how we'd like them to tweak their restructuring proposal so as to effectively indent those new proposed programs and have them be lettered items underneath a "II. Programs and Services" heading instead of being distinct roman numerals in their own right.

He agreed with that, so if we haven't already formally communicated our approval of that change to ETV and/or Les, it's OK to do so now. Thanks.
