

Good day,

You may be surprise to receive this mail since you don't know me personally, but with due respect, trust and humility, I write to you this Legitimate Business Project proposal. I am Mr. Tayeb Safi personal aides to Late President Muammar Gaddafi the stubborn Libyan leader. I move with my family to South Africa after the killing of Muammar Gaddafi, where I and my family are residing. I got you contact through South Africa Site agency Information Exchange and decided to write you. As one of the personal aides, I hold some vital information's and documents he classified as his top secret.

In July 2008 Muammar Gaddafi and I came to South Africa with the intention of buying a five star hotel. However the deal did not go through. So he deposited the sum of **USD\$25 Million (Twenty Five million United States Dollars)** in one of the private finance and security company as advice by me since he could not possibly go back to Libya with the money. This money was deposited in a Safe box declared as family treasure to avoid much demurrage from Security Company. As he has been killed by NTC / NATO I decided to move this money to your country before the United National discovers this as an asset of the Gaddafi family and freeze it. None of his family knows about this, I am the only person who knows all about it and you that I am contacting to do the deal with me.

All documents relating to the depositing of the money are with me, will be destroyed after the transaction is concluded. I have to transfer this money to a foreign account soonest without the knowledge of any one. Moreover, I want to use part of this money to invest into partnership with you in your country in Real Estates, Mechanized Agriculture, Transport Industry or any profitable business you may think as soon as the transaction is conclude. Currently we are PRESENTLY REFUGEES (Asylum seekers) here in South Africa and we cannot open a non-resident account through which this fund will be channeled out to any nominated overseas account.

I have entrusted this transaction in your hands, I must let you know that this transaction is risk free but a TOP SECRET. If this interests you, kindly send me your details on my private email Id **tayeb safi private@exclusivemail.co.za** or **tayeb safi private@gmail.com** to proceed and secure all legal documents at the office of the security company to your name as the beneficiary to facilitate the transaction. I will give you 40% while 60% is for me and my family. To be honest you have to proof yourself that you would help me and not set me up; I have suffered enough in this world. Please I need your help urgently. You have assured me of my 60% before we proceed. I implore you to maintain the absolute secrecy required in this transaction.

Awaiting, your urgent response.

Best Regards,

Mr. Tayeb Safi.
