Sorry for the late reply..today has been crazy.

I would be glad to discuss any of this and what David said is correct at least as of last Friday. I do not think it has changed. I have a letter written decribing the situation as I saw it from initial involvement to now. It has not been sent yet based on me wanting to make sure my Director and Deputy were ok with it. It is a bit longer than I would like but hard to condense based on keeping the facts straight.

Mr. Glover let me know that someone would probably be contacting me and said to offer any help I could. I of course will be glad to do that in any form.

Subject: VoIP Committee

Dave,

Several of us IT directors (Garon, Tata, Langley, etc.) had a meeting today with Mike Langrehr and Marcia Adams Director of DMV about the CIO's Office. Mike and Marcia are heading up a subcommittee of the GEAR commission. We talked about the current status of the VoIP contract.

Could you please send Mike an email (and your letter if able) about the makeup of the committee - voting members from outside the state. You are on the committee and I could only convey what I discuss with you and I would like to ensure that the record is correct.

Please give me a call if you have any questions.

Thanks for your help on this matter.

David
