---

Thanks! Would you happen to have the vector file for this graphic? With the vector file we can enlarge the image without it distorting and produce a better layout. In addition, this file will be need to help with the actual sign production once a final layout is approved.

Here's the logo. I understand they want to add "2013-2015" below it as well. Thanks again.

**Subject:** Highway signs

Happy Wednesday!

Fred McConnell and I had lunch yesterday after our meeting with the RECs and he gave me some background on how GA did their highway signs.

We talked about what worked and what didn't so here is what I propose we do.

Small counties-5 signs  
Medium-7  
Large-10

County can decid where to place.

3x5

We should just put the SC Work Ready Community logo and we'll need to ask DOT about putting the date underneath but also if there is some way to put new dates on the signs if counties are re-certified, without having to take the signs down.

This is what I envision.

Under the attached logo  
2013-2015 (centered)

Can you ask Ted to check with Corrections to see if they can make these and contribute as part of the SCWRC and get blessed by DOT. I suspect that their district DOT people would have to put up the sign and would they provide that in-kind too????

Thank you!
