Subject: Safety

Dear Hon. Mr. Bryant,

Your lovely state was my home for more than a decade. I still have lots of family there. Two of my nephews are your police officers. I have several grand children in Taylors.

My reason for writing is this: I am an elderly Presbyterian minister and often travel to your state and through it to preach in various North and South Carolina congregations. I am scheduled to preach in one of your large congregations in 2018. I and my wife are trained concealed carriers. We feel very secure as we travel all over the Southeast except in your state. 35 states honor our permits, So why should we be compelled to feel insecure and nervous in these troubled times when we are traveling in your state.

. A humble inquiry,

Rev. Myron Mooney
