She stated the board had 5,796 licensees that renewed online, 870 licenses were still "Active in Renewal"; but did expire on June 30, 2012. It was suggested that staff send out a letter making them aware they do need to obtain continuing education; the committee will provide acceptable course topic criteria which will be placed on the ECB website. Presently the committee is working on an exam which should be completed by the November meeting; it will be presented to board members for their approval.

David Baize reported the Emergency Preparedness Response team at DHEC recently met to evaluate their plan of action should an emergency occur in South Carolina. Dear Lenora,

We are pleased to present to you the ABC 2011 Annual Report. This year's annual report celebrates the successes of ABC members and volunteers and offers a vision for the future. While the environmental certification industry looks drastically different in 2011 than it did in 1972, one thing that has not changed is the support provided to certification programs by ABC.

On behalf of ABC's Board of Directors, we thank you and your program for your continued membership and involvement with the Association of Boards of Certification (ABC). As you read the Report, you are invited to embark with us on our journey to serve those who are protecting our public health systems. We hope you enjoy reading about our adventure as much as we enjoy sharing it with you.

We look forward to continuing our partnership with you and serving your needs as we join together in our mission to advance water quality and integrity through environmental certification programs.

Warmest Regards,

Chip Mackey
