

Dear Honorable Nikki Haley

I was writing you to ask you about the law that passed about the 85%. In the Feds they passed the law and in the state they didn't. It's a lot of people in the state prisons going through the same thing. It's been many petitions about that law in South Carolina. It seems it just get ignored and overlooked why i don't know? Im not saying people shouldn't do there time, But it's a lot of people doing to much time on the unfair drug laws in South Carolina. You also have to many people unable to earn good time. People change for the better and cant earn good time. Inmates slave for these prisons that cant and wouldnt run smooovely without us. Not to mention its caucasian people with the same Drug charge or worst than African American and Mexicans, But Mexicans and African Americans get more time and rarely ever get 65%. But a lot of caucasians do. Please know you will be doing a great thing if you signed off on this law. Every County Jail is over crowded so is Kirkland and also Every prison in South Carolina. I never even touched any drugs or owned any but im doing 7 years. →

for being in the wrong place at the
wrong time and keeping my mouth
shut. South Carolina's Definition
of Charging someone with violent crimes
that aint violent is terribly unfair and
makes no sense at all. I dont mind
doing time for something i did or
deserve. But to see different races
with the same or worse charges get
less time and non violent is just not
fair. We are all the same in GOD'S
eyes. Please Consider and Thank You
for your time

MRS Naley
