Subject: RE: Fees by Class

Hi Danny, good to hear from you, of course I miss you, we all do! Hope new gig is working out well.

Regarding your request, we can provide the data for FY14, FY15 and FY16. Going back any further then that would cause some comparability issues given how much we have improved our fee collection process in the past few years. Is that what you are looking for? Doing a report showing cumulative performance & aggregate fees would not be ideal, but stand-alone year by year reporting is easy and something we have already made publicly available just in slightly different format.

Does that help?

Subject: Fees by Class

I have a fees question, and after hearing how much you miss me, I am excited to ask. I can't recall if this has been done on a historical basis--3-year, 5-year etc. Does it exist in that format? Thanks

DV
