Danny,

Thanks for the note. I reached out to McMaster in his capacity as governor, and didn't know that James Smith was going to be at yesterday's event. It was 5 p.m. before I got back to the office to write — I think given more time and knowing multiple candidates were going to be quoted I would have reached out to you. If I cover personhood or PP defunding as an issue again I will be in touch. Thanks for the reminder.

Best,

Mary Katherine

Mary Katherine, this is Danny in LG Bryant's office. Thanks for your coverage on the new PP location. You may not recall that Kevin sponsored the Personhood bill before he left the Senate, and the defunding effort last week in the Senate was his initiative taken up on the floor by Senators Cash and Martin. Please let us know if we can be helpful if you write more on this subject
