We just camped at Oconee state park with our camping club for 2 weeks and we must say that is one nice park. The staff works hard to make sure it is clean and they are always so helpful. Let the person over that park know we were very happy and are getting ready to book next year

We just camped at Myrtle Beach state park with our camping club for 2 weeks and we must say that is one nice park. The staff works hard to make sure it is clean and they are always so helpful. Let the person over that park know we were very happy and are getting ready to book next year. The remodeling looks great and thank you for replacing the washer and dryers!!
