Subject: Alucoil Overview

John and Tony,

I have attached a very brief PDF which gives a concise overview of the history of Alucoil, our results, and our direction.

This was developed just in case I have to present. It is also a blueprint of anything I'd say tomorrow in relation to the Work Ready Program. In that sense, what I mean is that we are a growing business, need local talent, and look at the work ready program as an ideal medium for bringing in local talent who can grow as we grow. The presentation may also serve to brief anybody who will be in attendance tomorrow.

Best Regards,  
Samuel
