Hi! We are trying to make a reservation for Dreher island state park for Thursday the 23rd, in any waterfront spot. On the website it says "call to reserve" but the phone number just goes to a recorded message saying to go to the website. I'm betting it's because there is only 1 night available at any of those spots on that date, so it doesn't meet the requirements for booking online. Is it possible to stay only one night when only one night is available? If so, we have left a voicemail on the recorded line, but am not sure what else to do. Can you help? Thank you!!
