Sorry - I just talked to Swati again, and it looks like you're off the hook. Thanks.

Ken,

I apologize - I'm getting this second-hand. Senator Davis has asked for a side-by-side of his amendment against the current draft (which I suppose is the committee amendment, as amended by all those various floor amendments). We're a little busy with State of the State right now, but said that if you could pull together a first draft of that document, then we could try to close any gaps or make any other needed insertions. Would that work? Thanks.
