Megan,

You can find the letter attached.

Subject: Reuters - Letter from Gov. Haley on plutonium

Good morning Chaney,

I'm a Reuters reporter working on a story about a letter that Governor Haley sent yesterday to U.S. Energy Secretary Moniz regarding a plutonium shipment from Japan. The letter is attached. Would you be able to confirm that the letter came from the governor? Further to that, is there any additional comment you'd like to provide? Is the governor planning to make a statement or give a press conference on this issue at any point?

I'm available by email or at the numbers below.
Thanks much,
Megan
