**Importance:** High

Gentlemen,

This is a must watch video from yesterday. Matt Gardner, Innovation Fellow at the Bay Area Council Economic Institute, discusses SC and how well we're doing in the area of high tech job growth/technology. In short, we're doing amazingly well.

This should be a HUGE story and something we're extremely proud of. We also need to do MORE to keep the momentum going. Research dollars, and the need for more, are specifically mentioned. There is a huge opportunity here.

I sincerely hope Governor Haley makes this a focus area of her campaign. She's the right person to do it.

Todd
