**Subject:** Top expert 'how to' resource – recovering from a natural disaster

---

Hi there,

I have an updated resource that I am very excited to share with you.

Bill Begal—natural disaster preparedness specialist and founder of Begal Enterprises—worked with my team to produce this guide:

Recovering From a Natural Disaster in College: A Student's Guide for What to do on Campus  
<https://www.affordablecollegesonline.org/college-resource-center/natural-disasters/>

The guide provides potentially life-saving, expert advice on issues like how to prepare for a disaster and what to do in the initial aftermath, as well as how to access the various types of support available. The guide also details reputable organizations offering help after disasters are also featured.

I discovered your site (<http://ltgov.sc.gov/emergency-preparedness/pages/default.aspx>) and saw the helpful resources you're sharing. Would you like to include a link to this expert guide with your other materials and help me share it as widely as possible? I hope to hear from you soon.

Thanks,

Ryan Kelly
