Subject: Let the people decide

Dear Friend,

The lifetime appointment of a Supreme Court justice will impact our individual freedoms and the direction of our country for years to come. It is my hope that Nevadans will have a hand in such a critical appointment, and that the Senate will exercise its constitutional power and not vote on any nominee until after the next president- Democrat or Republican- is sworn into office.

Read my full statement on the nomination [here](#), and click to sign your name above if you also agree.

Sincerely,
Adam
