Subject: Any thoughts about the Budget and Control Board?

Greetings from your old friend in the barbecue business. I know that I've been a bit somewhat scarce around your parts over the last two years but fortunately (or unfortunately, depending on your perspective), I'll be spending more time in Columbia over the next few months. As you all know from first-hand experience, Gov Sanford has a way of "volunteering" folks for projects, and you may have heard that he's asked me to chair a committee tasked with helping Henry in his effort to improve operations and service at the Budget and Control

Board.

If I recall correctly, some of you had strong opinions on this topic so I hope that you're willing to share specific, constructive suggestions now that we're in a better position to make improvements over there. Given Marcia's popularity at last week's cabinet retreat, I'm pretty confident that is the case.

You can help us gather "opportunities" for improvement in one of several ways....

- Follow-up with Marcia as discussed at the retreat

- Email me so I can have the best person on our committee follow-up on your thoughts

- Circulate the following website <https://ssl.sc.gov/GEARSurvey/> amongst your staff and vendors so that they can easily provide feedback as customers and suppliers of the Board

Our nine person committee has people with good functional experience in areas such as IT, Procurement, Human Resources, Real Estate, Fleet Management, and other areas of the Board. If you have good people in these and other functional areas who may have suggestions on improvements to the Board, please let us know as well and we'll follow up with them individually. We need to have a report ready to go in a couple of months so the sooner we hear from you the better.

At our first committee meeting, we all agreed that the number one way to improve the Board is to hear from its customers. Well, we're listening....

Chad
