Katherine,

We had a great meeting with oil and gas representatives this week in Louisiana. I hope y'all have received the below letter from the industry inviting certain governors to this upcoming meeting. While I understand the governor might not be able to attend, I think it's important that we send a representative. If she doesn't intend on going, I would like to recommend Dr. James Knapp from USC (the preeminent expert in these matters in SC) and Bill Crowther from the Georgetown Economic Alliance. Both have been deeply involved in getting the oil/gas business' attention drawn to Georgetown. Please pass this info along to the necessary parties.

Thanks!

Stephen

Hi Bill,

It was great to see you and your group yesterday. Thank you again for making the trip to Louisiana to see Port Fourchon first hand. As promised, please find attached the letter that was sent to Governor Jindal with the agenda for the upcoming BOEM/BSEE meeting.

Governor Haley likely received a similar letter.

Best regards,

Lori
