You may think you guys won but all you have done is bring bigots into the White House you forced Trump to pick Pence and now he has selected Bannon. How low will you go to get power, that is a rhetorical question what your support of Trump has done is bad enough but how dare you claim you are the people's party and that you believe in equality and freedom. You guys are the Boogeyman we should fear you make Lee Atwater look like a saint.. Lincoln is turning over in his grave.. imagine our world if Europeans would have embraced the Native Americans in this country instead of trying to destroy their culture. Imagine if African Americans were invited into our country instead of brought chained and beaten in slave ships. I do not know how you all could have sold your soul to do this...
